## BUSINESS ENERGY

In 2008 we initiated a GREEN ENERGY Department within LARA. As the services expanded a separate company emerged in 2011, LARA BUSINESS ENERGY, that focused solely on the green energy sector.

Headquartered in Bucharest, Romania, currently we manage projects all over the country.

Our employees are professionals with business consulting experience, solid technical background and a profound understanding of the energy industry in Romania, and worldwide.

About us. Our Services. ENERGY 

## Company Overview

LARA BUSINESS ENERGY provides integrated services, business and management consultancy, for the energy sector. We develop renewable energy projects, we offer support for high cogeneration efficiency projects, we offer energy and gas market consultancy ensuring market and feasibility studies, management and administration services for establishments producing energy from renewable resources.

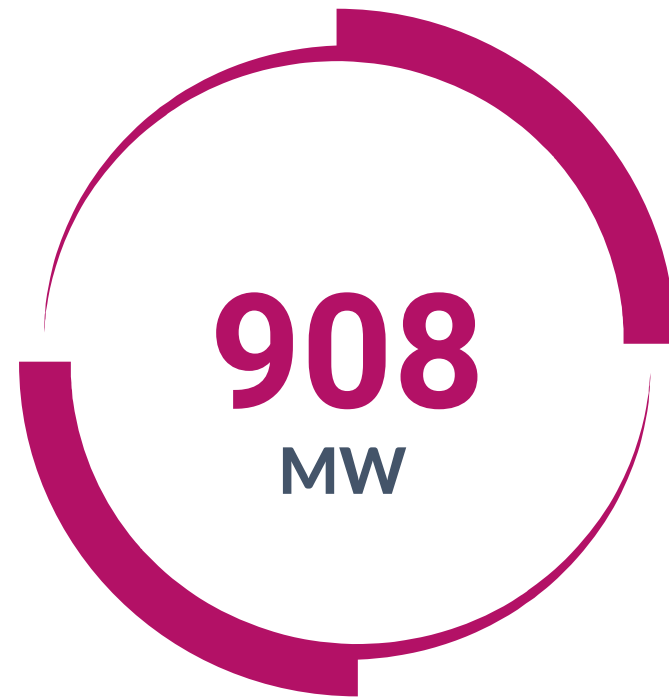

We develop and operate renewable energy projects, for our clients, offering consultancy and technical services in order to obtain agreements, notices, permits, licenses, certificates and accreditation for obtaining green certificates needed to develop this type of activity and we provide commercial operation and maintenance services for exploitation of these investments.

### Our Vision

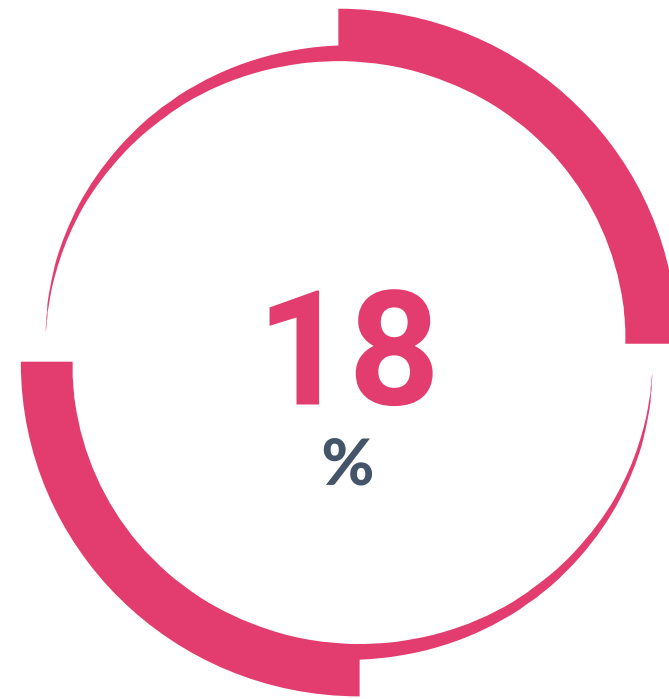

Our vision is based on an everlasting challenge to build solid, sustainable partnerships based on trust, professionalism and confidentiality, for capitalizing opportunities, increasing efficiency and for raising the bar regarding customer development.

## DEVELOPMENT

Permits, licenses, accreditations for the energy project.

## COMMERCIAL OPERATING OF THE PROJECT

Project administration and relationship with authorities, reporting, green certificate circuit management, contract management, financial and accounting consulting.

## ENERGY BROKERAGE

Sale / purchase of electricity from and for final consumers, RES energy production projects, RES power plants.

## TECHNICAL DUE DILIGENCE

We independently evaluate projects in the field of renewable energy, to support the project in meeting investment criteria.

## ENERGY AUDIT

Realization of energy performance certificates and energy audit for various types of buildings: residential, industrial, commercial spaces, institutions and others.

## MAINTENANCE

Civil, electrical, monitoring (external)

## SISTEM SOLUTIONS

In 2004 we initiated a GRANTS Department within LARA, and in 2007 LARA SISTEM SOLUTIONS has emerged as a separate entity, and focused its activity on accounting services and obtaining non-reimbursable funds (grants) for private operators in order to increase and modernize Romania's production capacity.

Headquartered in Bucharest, Romania, currently we manage projects all over the country.

Our employees are professionals with business consulting experience, solid acquisitions and financial background, as well as a profound understanding of the process of securing grant funding.

About us. Our Services. GRANTS

## Company Overview

LARA SISTEM SOLUTIONS is a consulting company that operates in the field of accessing non-reimbursable financing from Romanian & European funds, as well as in the field of financial-accounting activities and financial management of investments.

We are dedicated to securing grant funding for private industrial, renewable energy and research & innovation projects. So far, we have submitted projects worth more than 350 million euros for approval. Our fields of expertise include: grant writing, project management, organizing and managing calls for tenders, budget optimization, financial auditing, strategic management and new business development consulting.

Members of: ACRAFE, PIAROM, UNPR

### Our Vision

Our vision is to translate customer ideas into reality, helping them create sustainable improvements for their business.

## WRITING, AUDITING & SUBMITTING THE PROJECT

Eligibility analysis of a project idea.  
Identifying the optimal financing solution.  
Preparation of the Financing Application and the required annexes.  
Preparation of the Business Plan, including the extended Market Analysis.  
Submission of the financing project.  
Assistance in signing the financing contract.

## PROJECT IMPLEMENTATION & AUDITING

Procurement Plan Management. Assistance during the bidding period.  
Preparation of procurement documents, according to the legislation in force.  
Record progress of the project according to the financing authorities standards.  
Preparation of Refund / Payment requests.  
Budget Management.  
Early detection of possible changes in the project. Preparation and submission of change notifications.  
Assistance in fulfilling the mandatory information and publicity measures.  
Assistance in fulfilling the mandatory indicators assumed by the client until the end of the project.  
Verification of the fulfillment of the mandatory project objectives.  
Assistance with the control visits of the authorities.

## EXTENDED PROJECT MONITORING

Training on archiving project documents.  
Assistance in the preparation of annual sustainability reports.  
Future development strategies proposals.

## Laura CIUHU

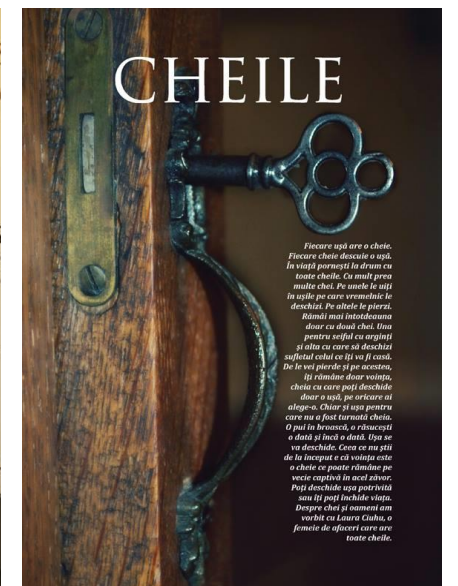

FOUNDER

In over 18 years of entrepreneurship, of building and refining business models for simple or intricate ideas, she has founded companies in several industries, and throughout the elapsed time have secured at least 3 leading companies in their market, among which are LARA BUSINESS ENERGY and LARA SISTEM SOLUTIONS.

Laura Ciuhu graduated the Academy of Economic Studies of Bucharest in 2000. She is an Expert Accountant, Expert Evaluator, Auditor and Fiscal Consultant.

The most important moments of her success acknowledgement, throughout the years, are:

- **2013** - Laura Ciuhu becomes Editorial Director of Business Woman Magazine. The publication highlights the stories of women entrepreneurs, including freelancers, involved in the policy making areas, NGOs, business trends and practices, as significant inspiring professional life experiences..
- **2015** - Laura Ciuhu receives the award for Best Entrepreneur of the Year for creativity, organizational skills and for holding position in developing companies in competitive markets. The award was received within the Business Arena's 2015 Most Admired Business Women Awards gala.
- **2016** - Laura Ciuhu conducts a unique interview entitled "Keys", edited by the Legal Point magazine team, illustrating the essence of success through the ability to hold and use the rightful key with the doors that an entrepreneur faces.

- **2016** - Laura Ciuhu conducts a TV interview for the show "Art of Happiness", which focuses on the fact that a person's luck happens when opportunity perfectly meets and matches the training of that person.
- **2018** - Laura Ciuhu receives the Dama Godine award in Belgrade, (Lady of the Year), honoring both personal qualities and the professional background so far.
- **2018** - As UNPR Vice President, Laura Ciuhu, concluded in 2018 a collaboration agreement with BVMW (www.bvmw.de), through the mediation facilitated by the Romanian Embassy in Berlin, for the benefit of Romanian textile companies. The agreement aims to encourage exports and is currently continuing this initiative to support other business sectors such as IT&C or food through large-scale events under the GO TOGETHER GROW FASTER events brand (www.gotogethergrowfaster.com).
- **2019** - She is honored to receive the title "Green Woman", at the gala of the same name organized by the Pro Familia Association, for the remarkable results obtained in her activity, promoting a healthy life, a correct social behavior and the evolution of society as a sum of the evolution of its individuals.
- **2019 - 2020** - Receives the **Best Knitwear Manufacturer - Europe** award, for the **Lara Wear knitting factory**, from LUXlife Magazine, during the 2019 Fashion & Lifestyle Awards.
